

Index January 1986 to current (Summer 2017) for 109 quarterly issues.

The Uniformed Family Physician (UFP), the newsletter of the Uniformed Services Academy of Family Physicians, has been issued quarterly since 1986. The 1986–1989 issues are January, April, August (July in 1989), December; then by season 1989 on. In Fall 2007 the UFP started numbering with annual volume and issue number (1-4), and sequential edition number. Prior issues are denoted by year and quarter only. The sections indexed below are Department, Committee Reports, Title, Author, and Topic. Department Index includes articles except Consultant and Committee Reports and articles about the annual meeting. Articles with no title are not indexed in the Title Index section; otherwise, the title is denoted by “[No Title].” Articles with no author are given Editor as author. After Fall 2007, the article series titled Consultant Corner changed to Consultant Report; this index uses the latter for all indexing. Title index ignores indefinite articles for alphabetizing and excludes Annual Meeting and In Memoriam. Topics are (sub)indexed by the author. Inputs are appreciated.
